

These photoexposures, which are suitable to satisfy small production needs, allow to create fast and low price photopolymer clichés of different size. They are made of high quality materials and they have electronic timer and vacuum indicator for a perfect exposition. All the models have a kit of products studied to let the operator work in a easier way during the clichés production. production of manual photoexposure unit includes the models: BR35M and BR50M. All the models follow the normes.

## TECHNICAL DATA

	BR 35M	BR 50M
Maximum plate size	350 x 250 mm	500 x 350 mm
UV lamps	n°4 x 20 W	n°6 x 20 W
Total absorbed power	220 V - 50/60 Hz - 150 W	220 V - 50/60 Hz - 300W
All functions independently controlled by multiprocessor	Yes	Yes
Weight	16 Kg	30 Kg

  

	BR35SV	BR50SV
Maximum plate size	350 x 250 mm	350 x 500 mm
UV lamps	n° 6 x 20 W	n° 6 x 40 W
Total absorbed power	220 V - 50/60 Hz - 1900 W	220 V - 50/60 Hz - 1800 W - 15A
Tank capacity	15 Lt	25 Lt
All functions independently controlled by multiprocessor	Si/Yes	Si/Yes
Weight	72 Kg	99 Kg

  

	BR70SV
Maximum plate size	500 x 700 mm
UV lamps	n°11 x 40 W
Total absorbed power	220 V - 50/60 Hz - 3600 W - 15 A
Tank capacity	50 Lt
All functions independently controlled by multiprocessor	Si/Yes
Weight	210 Kg

CONTROL PANEL

PHOTOEXPOSURE BR35SV

Our production includes the following models: BR35SV, BR50SV and BR70SV. All the models have high efficiency vacuum pumps for the UV exposition plane, inox developing tank thermostated with rotating magnetic plane, warm air dryer oven (The models BR50SV and BR70SV have UV supplementary lamps in the oven in order to have a faster drying process of the clichés). All the models follow the strict CE normes.
